OBJECTIVE

Motivated aspiring web developer eager to grow skills and contribute to innovative, user-focused web projects in a collaborative setting. Seeking hands-on experience with modern web technologies.

EDUCATION

Bachelor of Science in Information Technology Major in Web Development　　July 2021 - April 2025
Holy Angel University

EXPERIENCE

Full Stack Web Developer Intern　　June 2024 - September 2024
IT Squarehub

- Developed and refined the front end of an Inventory System, and Performance Management System using Angular, improving user experience and interface usability

PROJECTS

Pinescape　　2025
- Developed a front-end travel website focused on Baguio City, allowing users to explore destinations and book their travel, built with React and Tailwind CSS.

Sole Vibe　　2025
- Developed a front end web application for sneaker enthusiasts to browse and order sneakers, built with React and Tailwind CSS.

HallyuVerse　　2025
- Developed a front end Angular and Tailwind CSS website for K-Drama fans to browse genres, view drama details, watch trailers, and add it to their favorites.

ScentHub　　2025
- Developed a full-stack website for perfume enthusiasts to write, view, and like reviews using React, Node.js, and Express.js.

Objectiva - Capstone Project　　2024 - 2025
- Developed the front end of an interactive website that teaches OOP principles in Java through lessons, exercises, and quizzes using Angular.

Inventory System & Performance Management System - OJT Project　　2024
- Built the front end of both an Inventory System and a Performance Management System using Angular, enabling efficient supply tracking, report generation, performance reviews, and employee tracking features.
