SUMMARY

Web Developer with experience in front-end and back-end development, API integration, and database management. Skilled in modern web technologies and committed to building responsive, high-quality applications that deliver a great user experience.

EDUCATION

Bachelor of Science in Information Technology Major in Web Development **July 2021 - April 2025**
Holy Angel University

EXPERIENCE

- Junior Developer** **July 2025 - January 2026**
ShoreAgents
- Collaborated with the CEO and senior developers to build a dual-platform BPO recruitment system featuring AI-powered resume building, Filipino talent browsing, job search, and career-focused games.
 - Built an MCP-based AI agent integrated with Cursor, GitHub, and Slack to automate development workflows and enhance team collaboration.
 - Leveraged AI tools such as Cursor, and Claude Code to accelerate development and improve productivity.
- Full Stack Web Developer Intern** **June 2024 - September 2024**
IT Squarehub
- Developed responsive front-end interfaces using Angular and Angular Material based on UI/UX designs.
 - Collaborated with backend developers to integrate APIs and improve application usability and performance.
 - Designed UI/UX mockups using Figma and Canva to enhance user experience and interface consistency.

PROJECTS

- BPOC** **2025**
- Built a dual-platform BPO recruitment and job-seeking web application using Next.js, Tailwind CSS, PostgreSQL (Supabase), OpenAI API, and Anthropic (Claude) API, featuring Filipino talent browsing, AI-powered resume building, job search, and career-focused games.
 - Developed the platform to help applicants easily browse available job openings, discover roles that matched their skills and experience, and streamline the recruitment process using AI-powered features.
- Inventory System & Performance Management System - OJT Project** **2024**
- Built the front end of an Inventory System and Performance Management System using Angular, enabling inventory tracking, report generation, employee performance reviews, and employee management.
 - Digitized internal workflows by reducing manual data entry, improving operational efficiency, and providing employees with a more organized way to manage inventory and performance records.

SKILLS

SOFT SKILLS			TECHNICAL SKILLS		
• Critical Thinking	• Attention to Detail	• HTML & CSS	• Tanstack Query	• PHP	• Prisma
• Adaptability	• Teamwork	• JavaScript	• Tailwind	• Python	• Supabase
• Always Eager to Learn and Improve	• Hardworking	• Typescript	• Bootstrap	• Websockets	• Docker
	• Problem Solving	• React	• Flutter	• MongoDB	• Wordpress
		• Next.js	• Node.js	• PostgreSQL	• Cursor
		• Angular	• Express.js	• MySQL	• Claude Code

CERTIFICATIONS

- JavaScript Algorithms and Data Structures**, freeCodeCamp (2025)
- Introduction to Front End Development**, Simplilearn (2025)
- JavaScript Essentials 2**, Cisco Academy (2025)
- ReactJS for Beginners**, Simplilearn (2025)
